TaxHouse

TaxHouse was founded in 2006 in the context of domestic and international need for independence and specialisation, given the stringent objectivity requirements placed on traditional audit firms by various regulators around the globe.

As member firm of the Taxand global network, TaxHouse provides to its clients direct access to the local team of experts as well as to a worldwide network of tax specialists, with whom it shares global knowledge and tax innovations on cross-border transactions and tax planning solutions, so it can deliver rapid and accurate advice on international transactions. Our partners and managers work closely with our clients to develop and execute tax solutions that impact the design and implementation of their business strategies. In the current environment of constantly changing tax rules and regulations, corporations and individuals can derive significant and ongoing benefits from well thought, forward looking solutions which are delivered promptly by our team.

Taxand, the first global network of the world's leading independent tax firms, was formed in 2005 in response to the growing global need for independent tax advice, and has grown exponentially since inception. Taxand professionals partner with clients to optimise their businesses by anticipating, measuring and managing the tax implications of day-to-day operations and strategic decisions. Taxand brings together preeminent consultancy firms operating in the most important markets in the world, which employ more than 2,000 consultants in 40 countries.
